Colie, Cholors and Diarrhoea Remedy
R is a great remedy and one of the lest palent medicines on the market."
For sale by all dealers, Reason, Smith & Co., agents for Hawaii.

NALSSAI -- At Honolulu, May 10, 1900, to the wife of P. M. Naluni, a son.

DIX BURNING BATAAN COAL

As the result of the success of the coal-burning test which the U. S. A. T. Dix is making on this voyage, it is not at all unlikely that the United States Government will spend a sum of money that will figure up into the millions in the development of coal mines in the Philippine Islands, according to a statement made yester-day. For the first time in the history of the transport service on the Pa-cific Ocean, the Dix has not a speck of Japanese coal in her bunkers. She is buring coal from the mines

at Bataan, a small island just to the Mahakona Arrived, May 13, schr. O. south of Lugen, in the Philippines. It M. Kellogg, from Everett. Sailed, May has proved to be a superior article, splendld for steaming, and causing remarkably little smoke. The Dix has 2500 tons of this coal on board, and yesterday she gave the Sheridan enough to make a fair test with. According to the engineers of the Dix, the coal is every bit as good as that which is usually taken on board the transports at Nagasaki,

This is in spite of the fact that the coal which is now being used is "entry" coal, being taken out from the edge of the vein. The mine at Bataan, which is still practically undeveloped, is in a side-hill. The experts who have examined the property state that a still finer grade of cont can be se cured when the mine has been de-

Should the government decide that this coal is suitable for use on the transports, it will mean that the big troopships will cut out Nagasaki en-tirely on their runs to the Philippines. It will also mean that they will bring coal to this port and thus remain in Honolulu longer than has been the custom in the past. It will take considerable time yet, however, before these mines can be developed. The report from the Dix on the excellence the article will be forwarded to Washington as soon as possible

DIRIGO SAILORS KICK ON GRUB

Commissioner Almy's office down on the waterfront looked like a first class bank yesterday afternoon, for there was \$3500 in glittering gold and silver pieces scattered over one of the tables, all of which was there to be paid out to sailors of the American ship Dirigo, Captain Goodwin, which arrived Saturday evening from a long and eventful trip around Cape Horn. But though he was perfectly willing so to do, Banker Almy did not get rid of all the cash he had in stock, for the foc'sle hands of the aforesaid windjammer had a very large bone to pick with the skipper of the Dirigo, and refused to accept any of the money due them until their arranged, will be announced soon. grievances were disposed of.

But Captain Goodwin did not appear on the scene, and, as a consequence, there will be things doing this morning when Arbitrator Almy attempts to settle the dispute between master and men It's the same old story, over and over again. The deep water sailors say that the grub which was passed out to them was vile; that a respectable canine would turn up his nose at such suste-

grievances enough, to be sure, as has every sallor coming in from a seven-months' cruise (according to his own tale). And the probabilities are that some of their kicks will be sustained. These will cash in three or four dollars,

mayhap, to each man.

The ones who were paid yesterday were immediately surrounded by the were immediately surrounded by the usual bunch of waterfront hangers on. The pake tailor, the laundryman, the waterfront storekeeper—all of them were there to offer unlimited credit to ye jolly Jack sailor. And in the little alleys and on the street corners there were small gatherings, the tailor displaying samples of the very excellent cloth from which he made suits, and so

There were twenty-two men before the mast on the Dirigo, a few of which number signed on the ship at Rio Janeiro. Those who did not accept Janeiro. Those who did not accept their pay yesterday afternoon will pre-sent their grievances to the shipping commissioner this morning. Captain Goodwin will give his side of the question also, and, as is usual, things will be arbitrated by Almy.

WEALTHY LADY TOURIST WRITES VERSES AT SEA

Mrs. E. F. Chapman, a demure little voman who is returning to the States after a trip around the world, is one of the many celebrities on board Com-modore Filmer's pretty yacht liner Nippon Maru, which arrived here yesterday morning. Mrs. Chapman is poetess, her home is in New Hamp-hire, and, according to some of those who arrived on the boat yesterday, she is a very clever writer.

she is a very clever writer.

She busted herself composing witty Mr. On Yong is an example of the chymes, eatchy lingles and sarcustic industrious and capable Chinese. Starterses about everything and everyone ing a few years ago as a laborer on one on board the trim little steamer, and of the Wahiawa pineapple farms he has there isn't an officer on the yeasel who has not been "written up" since Mrs. In the property of the wallings pincapple farms he has there isn't an officer on the years with the property of Chapman is a wealthy woman and is traveling for her health. She chiqued her stay in Hanolulu yesterday very turning home, via san Prancisco, after much.

NOTED FLOWER PAINTER'S PLEA FOR AMERICAN ART

in Art and Literature.

"Have you yet to learn that, with very few exceptions, the greatest geniuses in Art spring from the poores people, from the peasant's sons?

"Don't you feel that it is the most sacred duty of a patriotic government to do all in their power to bring out those geniuses? And they can be found in the United States more than

in any other country.
"Read again that most striking of

The following earnest plea for American Art has just been received from Paul de Longpre, the famous painter of flowers, whose home is at Hollywood, California:

"People of the United States, richest country in the world, when will you awake to the fact that it is not money alone that makes a country great, that it is (and will always be) its great men in Art and Literature.

"Extract from editorial, Philadelphia Evening Item:

"Our Paris cerrespondent writes that we must do the French Senate and Chamber of Deputies the justice, that whatever may be the financial strain and political entanglements, both bodies are always ready to help, financially, any scheme for the furtherance of National Art. Often American onlockers have been utterly astonished at the Senate and Chamber of Deputies entanglements, both bodies are always ready to help, financially, any scheme for the furtherance of National Art. Often American onlockers have been utterly astonished at the Senate and Chamber of Deputies the justice, that whatever may be the financial strain and political entanglements, both bodies are always ready to help, financially, any scheme for the furtherance of National Art. Often American onlockers have been utterly astonished at the Senate and Chamber of Deputies the financial. ties curtailing for the sake of economy budget items relating to such vita voting at the same sitting large sums of money for new art items. It seems, indeed, as if there were an absolute agreement upon this point, that artistic

France. "Two thousand millions of dollars are going to be voted by Congress for this year's budget of the United States, "Read again that most striking of contrasts existing between two great sister republics;"

And of that faulious amount probably not one dollar will be voted for the furtherance of National Art."—San Jose Merenre and of that fabulous amount probably

PRACTICAL COURSE STRIKEBREAKERS AT OAHU COLLEGE

Oahn College is giving a course first aid to the injured. Short talks and demonstrations will be given by the doctors of the city on topics that will be of value to the students in the event of accident of any kind.

Three such talks and demonstrations will be given this year, and the course continued next year. In this way it is hoped to prepare the students to meet by prompt action any ordinary emerg-ency. Cases of accidents where a knowledge of the right thing to do would have made a great difference in the suffering of the patient are so num-erous as to make necessary some such training.
The doctors, who have been invited

to give this course, are responding most cordially. As many are specialists in their subjects, the course is sure to be most valuable. In addition to the for-mal talk and demonstration, the teachers of the grades will follow them up with further demonstration and illustration

The talks will be given in the Puna hou Preparatory School, Charles R. Bishop hall, on Mondays at 1:45 p. m. The students in the upper grades and in the classes in physiology will be re-quired to attend, and all other students

quired to attend, and all other students may attend.

Today (Monday,) Dr. James R. Judd will talk on "Hemorrhages." On Monday, May 24, Dr. N. B. Emerson will speak on "Asphyxia and Drowning," and on Monday, June 7, Dr. C. B. Cooper will speak on "Fractures, Sprains and Dislocations."

The course for next year, in which

The course for next year, in which other physicians will speak, the dates and subjects for which are now being

FIRE ENGINE HEATER ITEM

yesterday morning, when a special train started from town for Alea and Griffiths, S. men of many nationalities, including Hawaiians, Portuguese, Chinese, Porto Ricans and negroes. The payroll for per day-paid out at the end of each day's work. This money is brought to town and is finding quick circulation. The loss to the Japanese laborers of Alea and Waipahu is considerably over \$4500 per day. Necessarily the Japanese storekeepers have got the next steamer. down to a cash basis and are sticking to the present system.

The special train is adorned with a ong canvas streamer, labeled with its mission.

President Tenney of Ewa plantation gave out the following statement yesterday of the condition of affairs ing passenger on the Nippon Maru at Ewa plantation:

"On Saturday afternoon a letter, written in the Japanese language, was presented to the manager of the company by a committee. This letter was translated by the interpreter at the plantation to George F. Renton, manager, as follows:

" Ewa, Hawaii, May 15, 1909. 'Geo, F. Renton, Manager, Ewa Plantation Company, Ewa, Oahu.

"'Dear Sir: All the laborers on Ewa plantation, except the contract laborers and women and boys, wish to have their wages raised eight dollars per month of twenty-six days' work.
"'The women and boys wish to have their wages raised four dollars per month of twenty-six days' work.

" The contract cane loaders wish to be paid twenty-three cents and seventenths per ton of cane cut of 2000 pounds per ton of cane loaded of 2000 pounds.
"The contract cane cutters wish to

be paid twenty-five cents and one-fifth 'The contract cultivators under present contracts wish the contract price to be paid them per ton of cane cultivated to be one dollar and twen-ty-nine cents per ton of cane. If contractor cuts and loads cane, then he is to receive forty cents per ton more. " "The contract cultivators also wish the advance for their living expenses

to be \$15 per month of twenty-six days' work." Signed by a committee represent-ing all Japanese laborers of the Ewa

Plantation Company.
"To this letter George F. Renton made the following reply:
"'Gentlemen: I have received your
letter of May 15 and a translation of
same in which you have requested an increase of wages for various classes 'In reply, I beg to state that the

matters contained therein will receive my earnest consideration, and a He will visit the prettiest part of Irereply will be given as soon as possi-Yours truly. GEO. F. RENTON.

Leader Thrown Down.

Fred Makino, the self-appointed eader of the Higher Wage Association agitation, had a severe throw-down at Ewa on Sunday afternoon He went down on the train and expected to be received with open arms. This did not happen. He was handed a lemon, given the cold shoulder, and it was strongly intimated to him and crawd of fellow-agitators that they had better leave. One story of their reception is that when they went to the plantation hall, the plantation Japanese told them to remain outside. Another is that they were told to return to their train and not interfere with the working men. The lathad to hundle they would attend to hemselves. Makino marshaled a few score of Japanese at Hononituli, where The element hanging ground Honouli-ulf is said to be composed of game blory.

Fred Waldren will heave for the n ainland on the Hilonian, sailing next week. He expects to be gone about

Botween Boards,

PREPARING CONTRACT FORM FOR THE BANKS

In connection with his duties as acting Treasurer, Attorney-General Hemenway is busy preparing a form of contract to be used in connection with placing Territorial funds as deposits in banks. The law enacted by the 1909 Legislature allows 75 per cent, of the Territorial funds to be placed in the hands of the Territorial banks. The operation of the law is safe-

guarded with a number of restrictions, and the Attorney-General is drafting a contract form to incorporate the requirements of the law. He expects to complete the work today, and everything will then he ready for the transfer of the Territorial funds to the banks. tor of the formoral finds to the banks. A tentative form of the contract has been submitted to a number of the local institutions for suggestion, and they have all found it sublifactory and are ready to accept the suspensibility of caring for the public's maney under the rules and regulations prescribed.
